

One of the best astrologers in the world and researcher Richard Houck has suggested another chart and another day for USA but has been almost unnoticed by any astrologer.

This ignorance, in my opinion, has two main reasons :

First, he worked with sidereal zodiac. When many western astrologers hear of sidereal zodiac, they run away as though struck by plague.

And secondly, he has suggested other date than 4 July. What it should not be, can not be.

To control this chart we take assassinations of presidents, because we know

♂/♃ = ♀/♁ is murder.

AC and AC Lord are the country: USA (that is, it is the place where an event takes place, not the people who live there.)

As AC (Virgo) Lord we take Venus,

Sun, MC (Gemini) and ruler of MC (Mercury) are the president.

Moon is the public, the people who live there.

Because it is a murder or murder attempt we take Mars / Saturn and Neptune / Pluto midpoints. USA chart must have :

1- Neptune/Pluto = Sun

2- In the assassination attempts must be Mars/Saturn, Neptune/Pluto, Sun, MC and ruler of MC activated.

Richard Houck' s US Chart

June 19, 1776 11:54:46 AM LMT Philadelphia, PA

I have corrected it to 12:53:50 PM LMT

Used :

1- Sidereal zodiac (Krishnamurti Ayanamsa), Mean Node. 23°45'56" for Year 2000. Speed of precession is 50.2388475.

2- Progressions Keys :

Tertiary : a sidereal day = a sidereal month

Secondary Progression : a sidereal day = a sidereal year

3- Harmonic 4096

If we are looking Richard Houck' s Chart (Harmonic 16)

☉ = ♀/♁ = ♂/♀ and ♂ = ♁ (Mars and Saturn are exact to the second, accordingly their effect is greater and MC Lord Mercury is there, it comes to it- see page below)

If we are looking for a usa chart : Harmonic 4096

$$\text{♀ (MC ruler)} = \text{♂/♁} = \text{♀/♁} = \text{♀/MC}$$

Whenever these midpoints are activated, it keeps coming back that the president is being murdered or attempting murder, because upper equation through

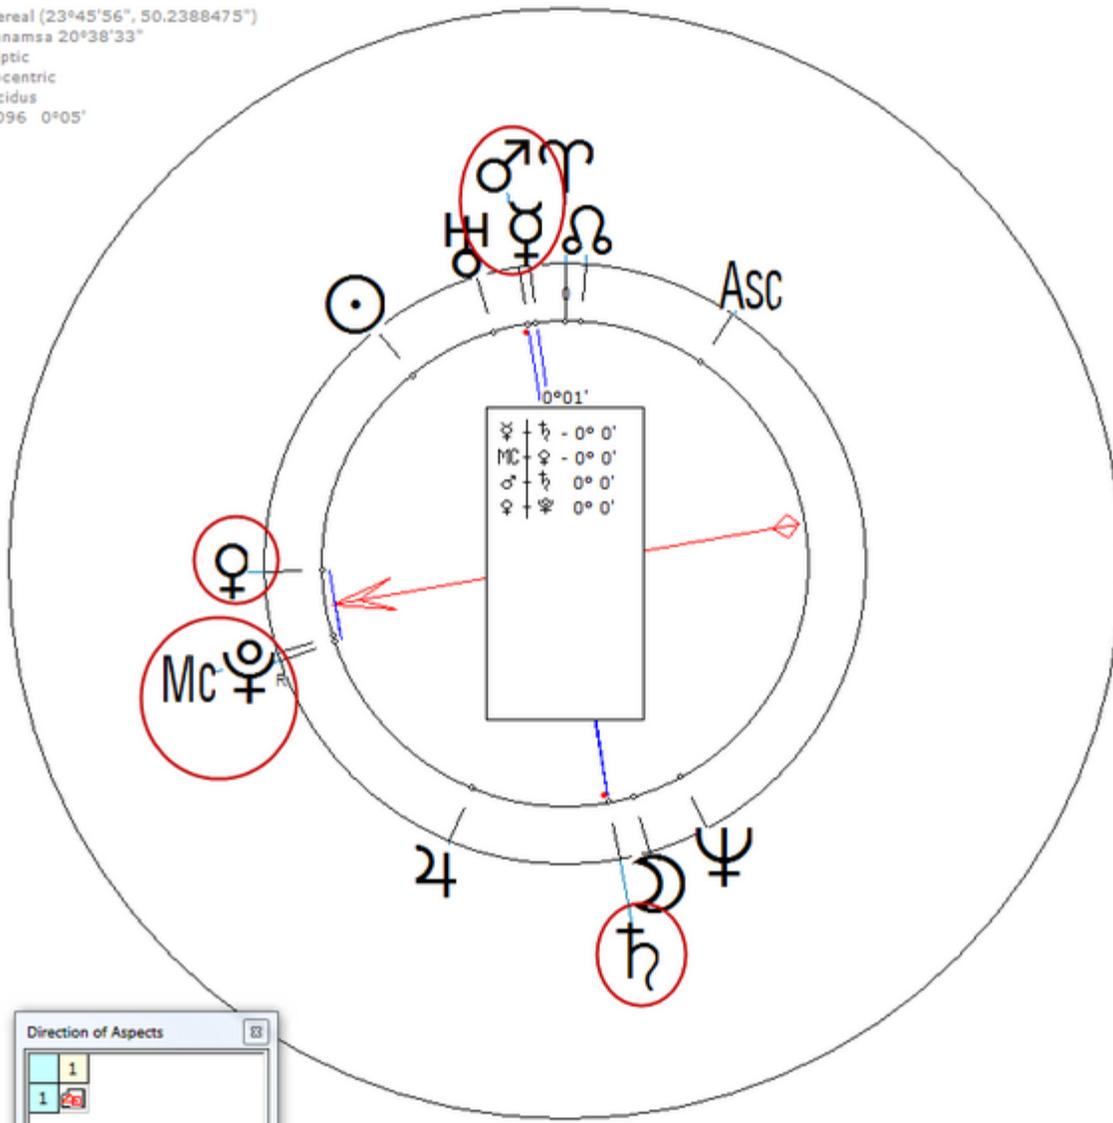

$$\text{♀} \rightarrow \text{☉/♀} = \text{♁/♁} = \text{♁/MC} = \text{♁}$$

connected to each other. Therefore, both planetary pictures are activated simultaneously.

# Abraham Lincoln

Abraham Lincoln, the 16th President of the United States, was assassinated by well-known stage actor John Wilkes Booth on April 14, 1865, at 10:15 p.m. while attending the play Our American Cousin at Ford's Theatre in Washington, D.C.

Tertiary : as we here see

$$\Psi_p / \Upsilon_p = \Upsilon_p = \odot_n$$

$$\Upsilon_p \text{ (MC ruler)} = \♂_n / \♃_n$$

Jupiter is in harmonic 4096 in Natal on Neptune/Pluto midpoint, therefore it is not a benefic, and here the natal midpoint is repeated in progression.
